PROGRAM

DURATION: 3 MONTHS

info@aparaitech.org

Your first Step of **transformation** begins, here and how

At **Aparaitech**, we move beyond traditional learning. We deliver a hands-on, mentor-driven training experience designed to prepare students for real industry challenges in fast-growing fields like Web Development, AI, ML, IoT, Python with machine learning, VLSI, and more.

Whether you're a student or a working professional, our programs are crafted to build practical skills, strengthen your technical foundation, and help you create real-world projects.

So you don't just learn — **you build, grow, and become industry-ready.**

Mission

To cultivate a strong community of future innovators and professionals, equipped with practical, hands-on skills that empower them to excel in today's fast-evolving, tech-driven industries.

Vision

To shape a future-ready workforce through accessible, mentor-led, and project-based education bridging the gap between aspiration and opportunity, and enabling learners to grow into confident, industry-ready professionals.

Say hello to

Aparaitech Live Project Program

A transformational, project-based learning experience.

24+ hours of updated content

Elite mentor panel

No one, but your own Live Project

It's not just a program. It's your career's switch.

15K+
STUDENTS ASSISTED

25K+
YEARS COMBINED EXPERINECE

90K+
INDUSTRY EXPERTS

What is a **Live Project?**

A Live Project = A real, industry-level problem you solve end-to-end.

You work with real scenarios, real challenges, and real deadlines — exactly how companies work.

It's not classroom learning, it's hands-on execution that builds your confidence and portfolio.

Why **Build** With Aparaitech?

Because here, learning is just the start.

You build real projects, solve real problems, and gain real experience.
Every project takes you one step closer to becoming industry-ready.
It's not just education — it's your launchpad into the tech world.

Key Highlights

Structured Skill Building
Start from the basics and grow step-by-step with guided mentorship.

10 Practical Projects
Work on 10 real project problem statements across 3 months.

Monthly Project Assignments
Get new problem statements every month to build consistent skills.

Real-World Project Experience
Complete end-to-end projects exactly like industry workflows.

Cross-Domain Exposure
Learn concepts connected with AI, Data Science, Cloud, DevOps, etc.

Industry Interaction
Join live review sessions, feedback calls, and mentor discussions.

Portfolio Development
Create a strong project portfolio showcasing your completed projects.

Certification Package
Get Course Certificate + Project Completion Certificate + Experience Letter.

Career Benefits
Eligible for HR Interview + Stipend opportunities.

Lesson Plan

Artificial Intelligence

Duration	Model
Month 1	**Assigned:** 3 Problem Statements **Student Choice:** Any 3, 2, or 1 Problem Statements (Depends on your choice) **Mandatory Completion:** Minimum 1 Project (End-to-End)
Month 2	**Assigned:** 3 Problem Statements **Student Choice:** Any 3, 2, or 1 Problem Statements (Depends on your choice) **Mandatory Completion:** Minimum 1 Project (End-to-End)
Month 3	**Assigned:** 4 Problem Statements **Student Choice:** Any 4, 3, 2, or 1 Problem Statements (Depends on your choice) **Mandatory Completion:** Minimum 2 Projects (End-to-End)

Lesson Plan

Data Science

Duration	Model
Month 1	**Assigned:** 3 Problem Statements **Student Choice:** Any 3, 2, or 1 Problem Statements (Depends on your choice) **Mandatory Completion:** Minimum 1 Project (End-to-End)
Month 2	**Assigned:** 3 Problem Statements **Student Choice:** Any 3, 2, or 1 Problem Statements (Depends on your choice) **Mandatory Completion:** Minimum 1 Project (End-to-End)
Month 3	**Assigned:** 4 Problem Statements **Student Choice:** Any 4, 3, 2, or 1 Problem Statements (Depends on your choice) **Mandatory Completion:** Minimum 2 Projects (End-to-End)

Wondering whether this course is the right match?

If you're someone who wants to create real websites, build responsive UIs, work with modern tools, and become job-ready — then this is exactly where you belong.

This Project Perfect for:

Web Development	Cyber Security
Frontend & Backend Engineers	Artificial Intelligence
Data Analyst	Data Science
Python with Machine Learning	Blockchain/Bitcoin
IoT & Robotics	Embedded System
Software Testing	UI/UX

Compilation Certification

Success Stories from those Complete Projects

Aditi Sharma
"Joining the program completely transformed my confidence. The hands-on labs and real attack simulations helped me gain a deep understanding of security. I even cracked my first internship because of this training."

Rohan Jagtap
"Aparaitech's cybersecurity training made everything so practical. I worked on real-time vulnerability analysis and learned tools I had never touched before. This course finally gave direction to my career."

Priya Deshmukh
"Aparaitech's training made everything so practical. I worked on real-time vulnerability analysis and learned tools I never touched before. This course finally gave direction to my career."
